

ENDODONTICS

INTERMEDIATE TRAINING COURSE

6
CE CREDITS

WHO SHOULD ATTEND

New or existing Waterlase dentists and specialists (who have completed the certified training course within the last 6 months) who are looking to train in laser surgery for endodontic treatments.

COURSE OBJECTIVES

This course brings a balance of didactic and hands-on approach to mastering the art of modern endodontics. It is aimed at helping clinicians who enjoy the practice of endodontics and who wish to enhance their ability to better serve their patients.

A one-day ITC delivers a tsunami of information that at once reiterates the core principles of clinical endodontics, and brings about the latest and greatest innovations. ITC is built on 3 complementary pillars:

- ✦ **THE SCIENCE** – It is imperative that any laser dentist first master the basics and fundamentals of Endodontics. Scientific literature will be used to support clinical protocols taught during the course.
- ✦ **THE CLINICAL** – Protocols will be provided to allow efficient shaping and effective cleaning and disinfection of the root canal system.
- ✦ **THE BUSINESS** – Scripting schemes will be taught to keep a healthy balance between knowledge and technology. The aim is to equip the clinician with knowledge but also with modern technology that will afford each clinician with the opportunity to stand out as the expert.

INSTRUCTOR:

Tuong Nguyen Nguyen, BDS, MSD

Dr. Tuong Nguyen Nguyen is a native of Saigon, Vietnam but has spent most of his youth in Brussels, Belgium. He attended the Catholic University of Louvain and graduated from the School of Dental Medicine and Stomatology in 1997. From 1997 to 1999, Dr. Nguyen practiced part-time in private practice and devoted the rest of his time as a faculty member at his Alma Mater. Subsequently, Dr. Nguyen attended the Case Western Reserve University School of Dental Medicine and earned a certificate in Endodontics and a Master of Science in Dentistry degree in 2001. From 2001 to 2008, Dr. Nguyen was a full-time Assistant Professor in the Department of Endodontics at both the University of Maryland, Baltimore College of Dental Surgery and the Oregon Health Science University School of Dentistry.
